CATALOGUES

In the boxes below, you will find the names of gadgets and devices as they appear in a catalogue. They are all real extracts from a real catalogue.

Your job is to write a paragraph describing:

- ◆ what these gadgets do
- ◆ how they work
- ◆ what they look like
- ◆ in what circumstances you could use them.

Example :

"Hidden Wire And Pipe Detector"

- ◆ It is a device which can detect metal wires and pipes hidden in the walls.
- ◆ It generally works by measuring the magnetic field reflected from a metal object.
- ◆ It is a battery-operated, hand-held device that you move along the wall. It probably beeps or flashes a light when it passes over a pipe or electric wire.
- ◆ You can use it when you want to drill a hole in a wall: it will help you find out the precise location of hidden pipes and wires, and thus avoid drilling into them, which could be very dangerous.

The titles containing the names of the gadgets have been organised into three categories.

☞ *You must choose (at least) one item from each category.*

Category A	Category B	Category C
<ul style="list-style-type: none"> ◆ Recording pen ◆ Digital voice changer ◆ Telephone flasher ringer ◆ Walkie talkie watches 	<ul style="list-style-type: none"> ◆ Truth machine ◆ Plug in bug killer ◆ Humane sonic mole repellent ◆ Sea scooter 	<ul style="list-style-type: none"> ◆ Roll up calculator ◆ Dummy CCTV camera with PIR swivel motion sensor ◆ Plant wizard ◆ Speech chip
