

Philips 388/488 Pocket Memo

Affordable introduction to professional dictation.

- **USER-FRIENDLY.** Voice activation for hands-free operation or single-hand operation with four position switch.
- **FAST.** Access any part of the tape with turbo rewind. Also monitor, fast forward and rewind with audible scan.
- **PERFECT RESULTS.** Adjustable playback/recording volume, the automatic gain control will adjust to optimum recording level.
- **SECURE.** Avoid unintentional operation with transport lock, save valuable dictation with record protection as standard.
- **EASE OF USE.** Audible end-of-tape warning and no cassette warning. LED indicates recording and battery status.
- **READY TO USE.** Both machines are supplied with batteries and a mini cassette.
- **P488 Additional features.** End-of-letter index tone to indicate the start of each document and number of recordings. Sensitivity switch for conference or close-range recordings.

You work for the Philips Company,
and you are looking for new markets: so you have sent a letter to Mr/Ms Johns, who is the purchase manager of a large commercial company in the United States.
You are now going to meet this person, and introduce your new products:
the **Philips 388 and 488 Pocket Memo.**
